

Happy Holidays!

CINNAMON ROLL BAKING INSTRUCTIONS

Keep frozen until 18-24 hours before baking. 18-24 hours before you'd like to bake the rolls, pull them from freezer and refrigerate. About 1 hour before baking, remove from fridge and let buns sit at room temperature for about 1 hour to finish proofing.

They will rise best if they proof in a slightly warm room. Preheat oven to 350 degrees. Remove plastic lid, discard. Place pan in the oven & bake for about 17-20 minutes, until rolls are a light golden brown and just a bit firm to the touch, but not too firm. Remove from the oven and let cool. Using a butter knife, spread icing over the top to cover. For best quality, please eat the rolls the same day they are baked. .
